

Hilary Hampton

DESIGNER, UI, UX

I was blessed with the opportunity to work with some incredible people in the fast-moving tech world of Silicon Valley. My prior experience in print and the expertise I gained at EasilyDo gave me a very t-shaped skillset.

I enjoy designing a wide variety of content and products. I thoroughly believe design plays a major role in achieving company goals.

WORK EXPERIENCE

[EasilyDo Inc.](#)

UI Designer, July 2013 – Present

I hit the ground running at EasilyDo (a smart assistant, a.i. powered start-up in Silicon Valley). A few months after arriving, our CEO trusted me with the complete re-design of our flagship app. While spearheading the project, I learned the complete process behind app design and development for both iPhone and Android. Since then, I have worked on several apps, websites, and have had incredible mentors with great experience in the industry.

[CSU Monterey Bay, Communications & Marketing](#)

Junior Production Artist, Feb 2011 – June 2013

Under the general supervision of the senior staff in University Communications, the Junior Production Artist assists the graphic designers with design, layout, and pre-press for print and web publications. Also assists in coordinating daily workflow as well as project management and scheduling.

EDUCATION

[California State University, Monterey Bay](#)

B.S. Web Design & Development, Spring 2013

Graduated Cum Laude Honors with Distinction
